# BLIGHT

DESIGNED TO PERFECTION

## LIGHT AS A MATERIAL FOR THE ARCHITECTURE

B LIGHT is celebrated as a luminaire manufacturer distinguished by meticulous attention to detail, impeccable finishes, and innovative breakthroughs. Their luminaires, renowned for design perfection, excel in both indoor and outdoor applications.

Inspired by the concept of "light as a material for architecture," their designs seamlessly integrate into architectural landscapes, embodying a harmonious fusion of artistry, functionality, and innovation.

lightnet

## MINIMALIST, SIMPLE, WITH A LOVE OF DETAILS

Lightnet's design ethos revolves around seamlessly integrating luminaires into architecture, blending them with the building's narrative rather than standing out. Embracing minimalism and meticulous attention to detail, their fixtures are crafted to aesthetic perfection, ensuring timeless designs.

Dedicated to enhancing modern architecture through light, Lightnet tailors lighting concepts to each space's unique character, resulting in individualized illumination.

lumentruss

## REIMAGINING LED LIGHTING

Lumentruss, based in Montreal, manufactures custom linear lighting solutions, specializing in LED technology installed into channels of extruded aluminum, reclaimed wood, and gypsum moldings. This results in a custom architectural-grade linear lighting system that can be surface mounted, recessed, or suspended.

They prioritize sourcing components domestically wherever possible and are committed to producing quality products.
